

Kenneth C. Gavrity

Presenter

Executive Vice President, KeyCorp

Group Head, Enterprise Commercial Payments
KeyCorp

Member of Executive Council, KeyCorp

Ken Gavrity is Group Head of Enterprise Commercial Payments (ECP) for KeyCorp. He is responsible for the strategy, development and distribution of Key's domestic and international payment and trade service offerings designed for businesses, public entities and financial institutions. He oversees all aspects of Key's Treasury Services, Commercial Card, International Trade, Merchant Services and Foreign Exchange, including product management and innovation, sales, implementation and support services.

Ken is a Board Observer for multiple Fintech companies including AvidXChange, Instamed, and BillTrust. He is also a Board Director for The Clearing House Payment Company.

Previously Ken served as the Head of ECP Product & Innovation. In this role, he was responsible for developing and implementing the ECP product strategy across all products supporting Key's commercial and corporate bank clients. Ken was also responsible for development and deployment of Key's payments fintech strategy.

Ken joined Key in 2012 as a Senior Vice President of Corporate Strategy supporting the Corporate Bank. In this capacity, Ken served as a partner to the business, ensuring alignment with the KeyCorp strategy, facilitating the planning process, providing substantive perspectives on business initiatives, and proactively identifying and managing acquisition, divestiture or partnership opportunities.

Previously, Ken worked at Ernst & Young, where he was a Senior Manager in the Transaction Advisory Services group assisting client executive teams with a broad range of transaction and strategy related activities. In addition to this, Ken has a long history in financial services including strategy and corporate development roles at National City Corporation and experience as a Fixed Income Analyst at Federated Investors. Ken earned his B.A. in Economics from Allegheny College and M.B.A. from Carnegie Mellon. He is a Chartered Financial Analyst.
